

LIMPAR

/// QUALITY MADE IN GERMANY ///

// LIMPAR WB TURBO IV //

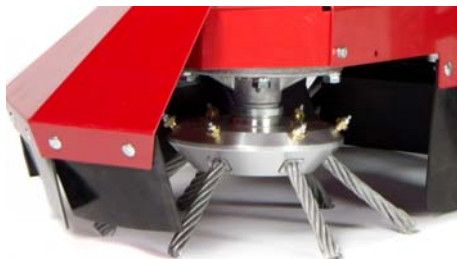

DETAILS

- 6 braided wire elements that can be swapped out via the quick-change fastener
- Braided wire elements automatically adapt to the ground on uneven surfaces
- Handlebar folds without tools
- Honda GCV 160 OHC motor

This machine, equipped with six braided wire elements, removes weeds from paved surfaces – without any chemical agents or thermal treatment.

Thanks to its balanced weight distribution and the large wheels it offers outstanding manoeuvrability. Special bearing support of the brush head enables vibration-free work. The brush can be pivoted laterally for convenient cleaning on edges.
